Multi-Pet Formula "F" Style Gallon

SKU: MR1009 - 4/case
Size: 1 Gallon

Urine Off Multi-Pet Formula, the #1 Veterinarian recommended product for urine odor and stain remediation, breaks down dried uric acid crystals – the primary trigger mechanism for repeated “marking” by dogs and contains pheromone blockers to prevent cats from “marking”. Urine Off Multi-Pet Formula is not a perfume or cover-up. It actually eliminates and removes all three major components of urine odor and stains as well as proteins found in urine, leaving a refreshingly clean surface.

Urine Off is the urine odor and stain remediation product that carries the “Seal of Approval” from the Carpet and Rug Institute, the U.S. Carpet Authority. Urine Off is the official show-ring cleaning agent for Crufts, the world’s largest dog show and is safe on all surfaces – even hardwood floors. Urine Off products meet strict EU standards for bio-degradability and are safe to use around pets and humans.

Urine Off Multi-Pet Wipes break down all residual odors – removing the primary trigger mechanisms for repeat marking. They are extra large, heavy-duty wipes suitable for litter boxes, hardwood, tile, laminate flooring, walls, kennels, and all other hard surfaces. These are also effective at cleaning feces, vomit, and bile. Makes cleaning up messes quick, easy, and convenient.

Urine Off Mini-LED Urine Finders

SKU: BU1025 - 6/Case

SKU: BU1024 - 12/Case

Countertop Disply

SKU: BU1030 - 6/Case

The Urine Off Mini- LED Urine Finder is the ideal tool to locate hard-to-find urine deposits. Most urine deposits are invisible to the naked eye until they collect soil that makes them easy to see. Unless you can find and remediate the urine, the smell will be a continuing saga.

This revolutionary ultraviolet LED technology is ultra-bright and custom engineered to easily fluoresce uric acid. The Urine Finder will save you time, money, and empower your own USI (urine scene investigation) capability!

This product requires that the user wear goggles and is meant to be used only in darkened rooms.

Uses 3 - AAA batteries (not included).
